Accreditation
The Office of Continuing Medical Education, David Geffen School of Medicine at UCLA is accredited by the Accreditation Council for Continuing Medical Education to provide Continuing Medical Education for physicians.

The Office of Continuing Medical Education, David Geffen School of Medicine at UCLA designates this continuing medical education activity for a maximum of 5.5 Category 1 credit(s) toward the Physician’s Recognition Award of the American Medical Association.

Each physician should claim only those credits that s/he actually spent in the educational activity.

Disclosure Statement
The FDA has issued a concept paper that classifies the commercial support of scientific and educational programs as promotional unless it can be affirmed that the program is truly independent and free of commercial influence. Along with independence, the FDA requires that non-promotional, commercially supported education be objective, balanced, and scientifically rigorous. The policy further states that all potential conflicts of interest of the continuing medical education staff and faculty be fully disclosed to the program’s participants. We at UCLA fully endorse the letter and spirit of this concept.

In compliance with this policy, we will disclose to the program audience any potential conflict(s) of interest related to the presentations made by faculty participating in sponsored or jointly sponsored programs by the David Geffen School of Medicine at UCLA.

Introduction

The goal of this program is to provide registrants with an update on clinical transplant management in high-risk situations as well as recent advances in clinical transplantation. A distinguished faculty has been assembled to address these issues.

Course Objectives

This course may be considered a didactic review of what is new in kidney and pancreas transplantation and a method to gain knowledge of current emerging issues in the field.

At the conclusion of this course, participants should be able to:

• Identify the latest techniques for managing challenging transplant populations

• Describe new therapies used in kidney and pancreas transplantation

• Recognize evaluative trends in selecting living kidney donors

• Describe current management of pediatric transplantation
